TriSource Solutions Acquires DCC Merchant Services USA, LLC

Information Details:

Davenport, Iowa November 7, 2008—TriSource Solutions, LLC is pleased to announce the acquisition of DCC Merchant Services USA, LLC, a leading provider of multi-currency payment solutions to ISOs, Independent Sales Agents, Agent Banks and Merchants. DCC provides merchants with a full suite of products designed to meet the payment needs of merchants of all sizes and industry categories and enable these merchants to capitalize on recent market forces driving international customers to U.S.-based brick-and-mortar and Internet-based businesses.

DCC Merchant Services USA provides U.S.-based businesses the opportunity for their customers to pay for their purchases in the currency that they know best—their own—while the merchant receives settlement in U.S. dollars. In addition, DCC provides e-commerce merchants with the ability to price and accept payment in foreign currencies, while receiving settlement in U.S. dollars. Planet Payment, a leading international multi-currency payment and data processor, powers both services.

“Expanding our product line to include multi-currency payment processing is significant to both TriSource and our network of Independent Sales Agents and ISOs,” said Tom Dunn, President of TriSource Solutions, LLC. “Our Agent and ISO partners will now be able to earn substantially more revenue from each participating merchant. With the level of foreign spending projected to steadily increase over the coming years, we have positioned our sales partners to take a leading position in capturing this opportunity.

“Merchants in the United States face increasing complexity in terms of different payment products and services,” said Thompson Morris, President of DCC Merchant Services USA. “Our array of solutions, particularly our suite of multi-currency processing products enables ISOs, Independent Sales Agents and Agent Banks to sell more efficiently and with greater profitability. Merchants benefit as well, enjoying increased sales volume and higher margins on each sale”.
